

DAY 161

LESSONS COVERED: ULAT 3.11

CONTENT: 1. PHONICS REVIEW

OVERVIEW: Lesson 3.11 review phonics once again in preparation for the final reading assignment of the first year program found in the next lesson.

ACTIVITIES:

1. Choose one of your students who manifests good pronunciation and have him or her read the first item from the oral reading test found at the end of the lesson. Evaluate the student on the basis of the grading key whose link (the percent sign) is located at the top right of the testing section. Then share with the class what that student's result would have been had that been the actual test, as well as how that score was derived.
2. Allow the students time to **INDEPENDENTLY PRACTICE** the oral reading test.
3. Finish the class by reading in unison samples from the oral reading test.
