

DAY 25

LESSONS COVERED: FREE DAY!

CONTENT: 1. TOURIST SITES

OVERVIEW: Time for a break! Use this day to present your students with photos of key tourist sites around the countries or primary country in which the language you are teaching is widely spoken. It is particularly helpful if you can relate personal experiences to your descriptions of those sites. Before giving information to the students, ask them to tell you what, if anything, they already know about those places. It may well be that some have visited them and can augment the class's enthusiasm (and envy) by means of sharing their own experiences. If you cannot find photos to project on the classroom screen, you can certainly find videos, either at your local library or online.
