

## DAY 109

LESSONS COVERED: ULAT 2.21

CONTENT:

1. NUMBERS TO 9,999

**OVERVIEW:** In lesson 2.21, the students learn to go beyond the number 100 in their ability to count or quantify items, conceivably reaching as high as 9,999. Additionally, they review the alphabet and thereby, combining both letters and numbers, prepare themselves to express and understand series of number and letters that commonly appear in serial numbers, reservations, model numbers, etc.

ACTIVITIES:

1. Do the **PRACTICE TESTS** at the end of lesson 2.20 with the students.
2. **READ** through section 1 of lesson 2.21 with the students.
3. Play the **SPELLING GAME** after the students read through section 2 aloud and watch the video.
4. Play **SHOWDOWN** as you read through sections 3 through 6.
