

DAY 110

LESSONS COVERED: ULAT 2.21

CONTENT:

1. NUMBERS TO 9,999
2. ALPHABET

OVERVIEW: In lesson 2.21, the students learn to go beyond the number 100 in their ability to count or quantify items, conceivably reaching as high as 9,999. Additionally, they review the alphabet and thereby, combining both letters and numbers, prepare themselves to express and understand series of number and letters that commonly appear in serial numbers, reservations, model numbers, etc.

ACTIVITIES:

1. Students study lesson 2.21 independently while the teacher conducts a **TESTING SESSION** on 2.20.
2. Once you have finished with the testing, continue reviewing and learning numbers by playing **BUZZ** with the students.
3. **READ** through section 7.
4. Have the students do a **PAIRED READING** over the same section and then read section 7 together in unison.
5. Divide the class into five teams and play **LETTERS AND NUMBERS** in section 8.
